Subject: status of potential work with R2 and NJ

Nidal,

I hope you are doing well.

My Division Director (Tim Buckley) asked me about the status of our potential work on the Solvay project in New Jersey.

Do you know what is happening with the request?

The last I heard was that NJDEP had submitted a request to Region 2 for assistance with the suggestion that our lab (NERL) could best provide the support that is needed.

I'm not sure what the process is but I sounds like we are waiting for a formal request from Region 2.

If you could let me know what to expect I'd appreciate it greatly.

Take care,

Andy
